

BlueGreen

Maximizing sustainability impact.

Our Values

At BlueGreen, our purpose, vision, and mission are admittedly pretty high-minded. We take these very seriously, and that means our daily work and business relationships must be grounded in, aligned with, and driven by a corresponding set of fundamental values.

BlueGreen's values are guided by the United Nations' Sustainable Development Goals and the Universal Declaration of Human Rights as adopted by the United Nations General Assembly.

We...

- are committed to life, people, community, and planet in all their diversity.
- recognize that resources are limited and precious.
- believe in science and the enduring possibility for progress.
- are at all times fair and honest in our dealings with clients, suppliers, partners, and employees.
- believe in the value and inherent dignity of every human being.
- value personal freedom and responsibility in equal measure.
